Summary

I am a software professional with nearly 4 years of experience in building highly scalable web applications. I have a solid background in Core Java, Spring Boot, Spring Framework, Hibernate, and Oracle SQL, and I have been involved in every step of the software development process, from system design up to turning business requirements into efficient, low-maintenance code and I love to take advantage of the latest technologies to craft high-performance solutions.

Skills

Languages: Java (Core, OOPs), Spring Boot, REST API, Microservices

Databases: SQL, PL/SQL, Oracle, MySQL JDBC

Technical Tools: Eclipse IDE, Postman, Jira, Maven, Git, VS Code.

Web Development: HTML5, CSS3, JavaScript

Non Technical: Leadership, Problem Solving, Collaboration, Analytical Thinking.

Projects

Acenda Insurance (TCS BANCS) | Java, Spring Boot, PL/SQL

April 2024 – October 2025

- Developed 25+ REST APIs in Spring Boot for insurance policy management, improving data retrieval time by 30 percent.
- Integrated third-party services and optimized SQL queries for faster performance.
- Collaborated with cross-functional teams under Agile methodology.

WBIFMS (Integrated Financial Management System for West Bengal TCS) |

April 2022 – March 2024

Contributed to the WBIFMS, a large-scale government initiative that aims to digitize and streamline West Bengal's budgeting, payroll, and financial operations. Designed and built secure, fast backend services with Java Spring Boot and PL/SQL to make database transactions more efficient. Worked with teams from different departments to improve system efficiency, protect data integrity, and help automate financial workflows smoothly.

Experience

Application Developer Intern

April 2020 – June 2020

Assist in Application Development

Tools Used: Java, PL/SQL

- **Contributed to the development and testing of web and enterprise applications using Java and Spring Boot.** Worked closely with senior developers to build backend features and design RESTful APIs.
- Focused on writing clean, readable code and troubleshooting issues to enhance application performance. Gained real-world experience with the full software development lifecycle, version control (Git), and agile team practices.

Education

B.Tech Computer science and Engineering

Graduated: 2021

IES College of Technology Bhopal

Awards & Certifications

- **Cross-Functional Champion:** Awarded for continuously encouraging cross-team cooperation, dismantling organizational silos, and achieving significant outcomes via effective teamwork and communication. Exhibited initiative by going above and above the call of duty, embracing lifelong learning, and helping numerous teams and projects succeed.
- **Star performer for the Month(Three time):** Honored for dedication, consistent high performance, and meaningful contribution to the project
